

Job Description

SriLankan IT Systems drives the airline's IT strategy through digital transformation, technology adoption, data modeling, business intelligence, and business continuity. The focus is on transforming business and operational processes, expanding digital passenger reach, and improving customer experience through solutions design, development, and integrations while enhancing airline IT domain knowledge. Award-winning SriLankan IT team is seeking dynamic individual to join as Senior Systems Engineer (DBA).

The position focuses on administration of large and complex enterprise server/database setup in the airline comprising diverse server infrastructure and multitude corporate databases. Contribute to IT infrastructure projects competently and carryout assigned work in design, implementation, maintenance and support of Oracle, MSSQL & other DBA services to meet or exceed set targets.

Maintain IT infrastructure and Application System requirements to operate business applications to its optimum capacity in-line with standard operating systems and RDBMS. Ensure the enterprise database systems are secure as per the industry standards and best practices.

Key responsibilities will include:

- Carry out predefined control procedures to ensure accuracy, integrity, security, and consistency of all system data maintained in databases and Review daily, weekly & monthly performance reports in order to ensure the availability, reliability and business continuity of enterprise server/database setup.
- Ensure infrastructure projects are completed within the planned targets in order to deliver on time services to customers. Also Provide support and technical inputs in creating, configuring and maintaining infrastructure, databases and database related logs to fulfil Application System requirements.
- Maintain and follow-up Backup Procedures, Disaster Recovery procedures and system policy implementation when performing database related job tasks in order to ensure efficient error/fault recovery with minimum down times.
