Cyber Security

We are Sri Lanka's premier private sector commercial bank. Our visionary journey has taken us beyond the realms of business as we have made a conscious effort to go where no bank has dared to go; from downtrodden villages long-forgotten, to the world across the shores. The driving force behind this epoch-making journey is our strong team of achievers, affectionately known as the Hatna Family. As we continue to make history and move ahead, we invite dynamic and ambitious individuals to join us in our trailblazing banking saga.

We are looking for bright minds to help us create a world of happy experiences.

UNDERGRADUATE TRAINEE - CYBER SECURITY (FTC)

Job Role

As an Undergraduate Trainee in the field of cybersecurity, you will have the opportunity to learn and contribute to securing critical systems and data. This role is designed for motivated undergraduates who are passionate about cybersecurity and eager to gain practical experience. The Undergraduate Trainee will work closely with experienced professionals, learn from real-world scenarios, and develop essential skills.

Key Responsibilities

- Assist in monitoring network traffic, logs, and security events.
- Learn to identify and investigate potential security incidents.
- Collaborate with the security team to analyze threats and vulnerabilities.
- Participate in vulnerability assessments and penetration testing exercises.
- Help identify weaknesses in systems, applications, and infrastructure.
- Contribute to remediation efforts based on findings.
- Gain insights into industry standards, regulations, and best practices.
- Assist in maintaining security policies, procedures, and guidelines.
- Support compliance efforts and ensure adherence to security controls.
- Learn about incident response procedures during security breaches.
- Assist in containing and mitigating security incidents.
- Document incident details and lessons learned.
- Participate in security awareness programmes.
- Help educate employees on security best practices.
- Contribute to creating training materials and workshops.
- Gain hands-on experience with security tools (e.g., SIEM, IDS/IPS, antivirus).
- Assist in configuring and maintaining security solutions.
- Learn about encryption, authentication, and access controls.
- Work closely with cross-functional teams (IT, Development, Compliance).
- Communicate security risks and recommendations effectively.
- Contribute to security-related documentation.

Knowledge, Skills and Experience

- Currently pursuing an undergraduate degree in Cybersecurity, Computer Science, Information Technology, or related field.
- Strong interest in cybersecurity and willingness to learn.
- Basic knowledge of networking, operating systems, and security concepts.
