

JOIN THE MOST AWARDED BANK IN SRI LANKA

With an enduring vision of being the most technologically advanced, innovative and customer friendly financial organization, we, the Most Awarded Bank in Sri Lanka, continue to progress steadily while being the first Sri Lankan bank to be listed amongst the Top 1000 Banks in the World.

Our unparalleled record of success is supported by an unmatched suite of digital offerings and superior standards in service, stability and performance. We are poised to ascend to even greater heights in the near future.

Engineer / Senior Engineer – IT Security & Compliance

We are seeking a highly skilled and experienced Engineer/Senior Engineer in Information Security to join our dynamic team. The ideal candidate will be responsible for ensuring our IT infrastructure's security and compliance with various regulatory standards such as PCI-DSS and ISO 27001. This role involves a combination of strategic planning, hands-on technical work, and close collaboration with other departments to maintain and enhance our security posture.

Job Profile

- Ensure compliance with regulatory and compliance-related requirements, including PCI-DSS, ISO 27001 and other relevant standards
- Lead the preparation, coordination and follow-up of statutory and compliance-related audits, including annual external audits, internal audits and vulnerability assessments
- Actively participate in the vulnerability management process, ensuring all procedures are in line with regulatory and compliance requirements
- Identify and implement improvements to existing security controls within the IT infrastructure to address evolving security threats, regulatory and compliance requirements
- Assist in developing, enforcing and updating IT policies, procedures and standards to ensure a secure and compliant IT environment
- Work closely with various teams to advise and ensure the integration of security practices into the overall IT strategy
- Stay updated with the latest security trends, threats and technologies to continuously enhance the organization's security stance

Applicant's Profile

- Bachelor's Degree in Information Security, Computer Science, Information Technology with a specialization in Information Security or any related field
- IT Security related professional qualifications such as Systems Security Certified Practitioner (SSCP), ISACA CSX Practitioner certificate (CSXP), GIAC Security Essentials (GSEC), ISO 27001 Lead Implementer / Lead Auditor (LI/LA) would be an added advantage
- Proven experience in information security, particularly in roles focusing on compliance, audits and vulnerability management
- Strong understanding of security frameworks and standards such as PCI-DSS and ISO 27001
- Excellent analytical, problem-solving and decision-making skills, with the ability to effectively troubleshoot and resolve complex security issues
- Strong communication and interpersonal skills, capable of working effectively across multiple teams and stakeholders

Successful candidate will be provided with an attractive compensation package benchmarked with highest paid IT organizations in Sri Lanka along benefits.
