Obtaining Requests for Sisu Sariya School Bus Services

The "Sisu Sariya Bus Service", implemented by the National Transport Commission, offers a safe and convenient transportation service for school children, allowing them to board and alight near their schools while charging only half of the regular bus fare.

- If you or your school requires sisu sariya bus services, you are informed to provide the origin of the service, the route, a list of school children who will be traveling on that route, along with the recommendation of the principal of the destination school, to the Regional Development Committee to obtain the required service.
