Our unparalleled record of success is supported by an unmatched suite of digital offerings and superior standards in service, stability and performance. We are poised to ascend to even greater heights in the near future.

Associate Engineering Manager – IT Security

JOB PROFILE

- Completion of security assessments as defined in the assessment schedule
- Perform SAST and DAST scans using industry-standard tools
- Conduct Architecture Reviews to assess the security of application, network and system architecture
- Identify potential weaknesses, security gaps and recommend security enhancements
- Conduct mobile application security audits
- Collaborate with development teams to integrate security testing into the software development lifecycle (SDLC)

APPLICANT'S PROFILE

- Bachelor's degree in Computer Science, Cybersecurity or related field from a UGC approved university
- Master's degree in Information Security or Cybersecurity is an advantage
- Minimum 3 years of experience in application security, including hands-on experience with SAST, DAST and penetration testing
- Relevant security certifications (e.g: eJPT, CHFI, CEH, Security+)
- Strong understanding of security principles and best practices, including OWASP Top 10, SANS Top 25 and NIST standards
- Experience with common security vulnerabilities and exploits
- Experience with containerized environments is a plus (e.g., Docker, Kubernetes)
- Excellent communication and interpersonal skills
- Strong analytical and problem-solving skills
- Ability to work independently and as part of a team

Successful candidate will be provided with an attractive compensation package benchmarked with highest paid IT organizations in Sri Lanka along benefits.
